GRATA International will hold a webinar: Opening a business in Turkey

On **September 21, 2022**, the GRATA International in Turkey will hold an online webinar on the topic: “**Opening a business in Turkey**”.

Turkey is a transcontinental country located between Europe and Asia. When registering a company in Turkey, it is important to comply with the requirements of local legislation.

Turkey's economy is considered one of the fastest growing economies in the world. In Western Asia, this country is considered the second largest recipient of foreign direct investment. Although Turkey is not part of the European Union, it enjoys various forms of tariff exemption with the EU. Currently, Turkey has a customs union with the EU, reducing the number of duties and tariffs on goods.

Turkey has significant potential for further growth in various global industries including IT, healthcare, automotive, energy and many more.
