GRATA International organised Annual Reporting Conference

On November 3-4, 2019 General Meeting of the GRATA International Association was held in Almaty, Kazakhstan. More than 70 people from 13 countries of presence of GRATA International attended the event.

The aim of the Conference was to discuss development outcomes and plans for 2020.

The moderators were Andrew Gamble, The Chairman of the Global Board of GRATA International and Dimitri Papadopoulos, Executive Director.

Expanded meetings of the working groups on the main industries and practice areas were conducted. Our colleagues shared their experience and discussed the details and pitfalls in lawyers' work.

This event helped to strengthen not only the business relations between participants but the friendly ones at the same time.

Following the Conference, attendees took a trip to Almaty mountains, the main sightseeing of the City. All of the colleagues got a boost of energy and emotions and had a rest from city vanity.

We are grateful to our guests, who attended the meeting, and looking forward to a mutually beneficial collaboration!
