2019 is declared as the Year of Regional Development and Digitalization of the Country

2019 is declared as the Year of Regional Development and Digitalization of the Country

The President of the Kyrgyz Republic, Sooronbay Jeenbekov, declared 2019 as the Year of Regional Development and Digitalization of the Country by Decree No. 1 dated January 11, 2019.

According to the decree, the main focus in 2019 will be the promotion of the digital fundamentals of the country's development. First of all, it is planned to provide universal broadband Internet throughout the Kyrgyz Republic, thanks to which it will be possible to get the most efficient, reliable and inexpensive connection of the country to global networks and data transmission routes.

In addition, by this decree, the President of the Kyrgyz Republic, in particular recommended to focus on creating a secure infrastructure for collecting, processing, storing and analyzing data, using the country's energy potential and ensuring appropriate security according to international standards, and also pointed out the need to build data centers.

The President also noted the need to implement the projects "Safe City", "Safe Road Traffic" and the transfer of public services to the "Tunduk" system, thanks to which the interaction of citizens with government bodies to obtain the necessary documents or certificates will be greatly improved.

The decree came into force on the date of official publication in the Erkin Too newspaper dated January 15, 2019 No. 2.
