# GRATA International Beijing together with Zhongman Petroleum and Natural Gas (Gulf) FZE visited Astana International Financial Center

**GRATA International Beijing** accompanied by their longstanding client, the Chinese company Zhongman Petroleum and Natural Gas (Gulf) FZE, recently visited the Astana International Financial Center.

During this visit, our Chinese partners had the unique opportunity to witness the operations of the AIFC Court and the International Arbitration Center.

Since Kazakhstan's independence, Chinese investments in our country have exceeded 23 billion dollars. As bilateral cooperation between Kazakhstan and China deepens and the "Belt and Road" initiative continues to develop, an increasing number of Chinese business representatives are considering our country as a promising investment destination. Our clients from China are actively engaged in a wide range of projects in Kazakhstan, across sectors including construction and infrastructure, oil and gas, industry and trade.

Furthermore, an increasing number of Chinese companies are now choosing to incorporate the AIFC Court and the International Arbitration Center as their primary institutions for resolving business disputes in Kazakhstan.
