On the implementation of the drug traceability system

By Resolution of the Cabinet of Ministers of the Kyrgyz Republic dated February 9, 2023 No. 53, it was decided to launch a phased introduction of a traceability system for medicines produced, imported and sold in the territory of the Kyrgyz Republic.

In this connection, the Resolution approved the Procedure for Ensuring the Traceability of Medicines, which defines the requirements for the process of traceability of medicines manufactured, imported and sold in the territory of the Kyrgyz Republic, to participants in the circulation of medicines and their functions, the procedure for registering participants in the circulation of medicines in the Information System "Electronic database of medicines and medical devices" and information exchange of participants in the circulation of medicines, the procedure for providing digital marking codes to participants in the circulation of medicines, requirements for applying a digital marking code to medicines subject to traceability, the procedure for providing information in the IS "Electronic database of medicines and medical devices" on the introduction of medicines into circulation, being in circulation and withdrawal from circulation, and making changes to them.

The functions for the implementation and maintenance of this system are assigned to the Department of Medicines and Medical Devices under the Ministry of Health of the Kyrgyz Republic
