Rules for registration of contracts related to industrial property objects, selective breeding achievements were approved

The Rules establish the procedure for registration of an agreement on the assignment of a security document for an industrial property object, selective breeding achievement, license agreement on granting the right to use them, an agreement on the pledge of the exclusive right of an industrial property object and a technology transfer agreement.

The provisions of the mentioned Rules also apply when registering a sublicense agreement.

The resolution comes into force after fifteen days from the date of official publication.
