The Law "On public-private partnership" entered into force on December 27, 2022

From the date on which this Law entered into force, the Law "On implementation of investment projects related to construction and infrastructure facilities on the basis of special financing" has lost its legal force.

The law reflects provisions on the regulation of public-private partnership, public-private partnership projects, the procedure for their selection, requirements for applicants, public-private partnership tender, terms of public-private partnership agreement, the procedure of its conclusion, amendment and termination, state support and guarantees for private partners and creditors.
