Changes in the rules of subsidising the clinical trials of implantable medical devices in Russia

The Decree of the Government of the Russian Federation No. 37 dated 20 January 2017 amended the Rules for Granting Subsidies from the Federal Budget to Russian Organisations for Partial Compensation of Costs Incurred for the Implementation of Projects on the Arrangement and Conducting of Clinical Trials of Implantable Medical Devices within the Sub-Program 'Development of the Medical Devices Production' of under the State Program 'Development of the Pharmaceutical and Medical Industry' for 2013-2020 approved by the Decree No. 1046 of the Government dated 1 October 2015.

The changes are aimed at enhancing the incentives to Russian manufacturers for the development of implantable medical devices and accelerating their market launch.
